

Attendance Management

• Easy To Use

Compact, ergonomic scanner includes full color touch for intuitive navigation and data entry

• Portable Lead Retrieval Built-in rechargeable lithium battery, charged from USB port or charging station with a 30+ hour battery life

• Capture Live Attendance Scan up to 1,500 attendee on a single charge and transmit them real-time to the Internet

Reliable Scanning

Reads 13.56 MHz RFID, 1 & 2D Barcodes or Magstripe badges

Registration Integration

Ability to link via a 802.11 network to live registration systems and databases

Mobile attendance tracking with proven technology that offers exceptional benefits

Convention Strategy Group's SmartMobile is a fully mobile, battery powered, cordless device for complete attendee management. This scanning unit displays captured demographic information on the full-color LCD screen and stores the data on a removable memory card. Its ergonomic design allows left or right-handed operation for effortless scanning and data entry even in the most demanding session scanning situations.

The SmartMobile device is easily utilized by room monitors to scan attendees. There are a variety of tracking options available with the SmartMobile. The unit has the ability to be preloaded with attendance information for controlled session access and can be configured to work wirelessly to connect to live registration databases.

This innovative and compact unit can be used to scan sales leads with a 30 plus hour battery life, while storing up to 1,500 scans. The SmartMobile is so simple that temporary staff can easily use it without supervision, making it the perfect fit for large and bustling sessions.

By partnering with Convention Strategy Group and deploying the SmartMobile solution, you will have access to www.ExpoConsole.com for all attendance reporting. The SmartMobile works seamlessly and in conjunction with all other Convention Strategy Group RFID attendance tracking solutions.

Attendance Management

Memory Capacity	8,000 scans
Notes / Qualifiers per scan	Up to 256 characters of text and up to 64 qualifiers (21 chars each)
Battery	Internal Lithium ion 3.7V rechargeable, not user replaceable
Battery Capacity	4.1 AHr, recharges in 5-10 hours from powered USB port or charger
Run Time per charge	30-40 hours typically including more than 1500 scans
Display	Full Color 3.5" Graphic LCD (320x240 pixels) with bright backlight
Charge Indicator	Red during powerup, Amber during charge, Green when fully charged
Barcode Scan Technology	CMOS VGA image with optics & high speed decoder
Linear Symbologies	Code 39, 128, 93, 11, 49, 2 of 5, 16K, UPC, EAN, RSS, & more
Stacked (2D) Symbologies	PDF417, Aztec, Data Matrix, Maxicode, Postal codes & more
RFID Scan Technology	Passive HF (13.56 Mhz) tags with up to 250 characters
RFID Protocols	ISO 15693 & TI Tagit HF standard; other formats to be released
Magstripe Technology	3 Track, Bi-Directional swipe, 2-50 inches/sec swipe speed
Magstripe Bit Density	210 bits per inch all 3 tracks
Magstripe Card	ISO 7811 compliant magnetic media, 0.010 to 0.050 inches thick
Communications	Class 1 Bluetooth, WiFi (optional), GPRS (optional)
Timestamp	Yes - Date and Time on each scan
Memory Card Interface	Micro SD type - PC File Format (protected content)
Operating Temperature	35-95 Degree Fahrenheit
USB Key Interface	Type A connector accepts any standard USB memory key
Computer Interface	Standard USB via mini-B connector (USB cable included)
Housing	Dark grey ABS plastic with light grey rubber moulding
Size	4.50 by 3.75 by 1.35 inches (11.4 by 9.5 by 3.4 cm)
Weight	11.0 oz (312 grams)
Accessories (Optional)	Wireless printer, PC Interface, AC Adapter, Transport Case, Internet Access
Software	Windows (32 bit) based checkout and return software
